Printix 2.2 & SAP2Printix Connector

Dear Partner,

ORdigiNAL Document Automation Solutions (DAS) is excited to inform you on the upcoming General Availability of Printix 2.2 on April 17th followed by the Market Launch to be announced at Tungsten Automation's first 2024 Customer Summit in Munich, Germany on the 23rd of April. Join us alongside your peers, experts, and industry thought leaders at two other Tungsten Automation Summits in Paris, France on April 24th and London, England on April 25th for an immersive day.

Printix, the Cloud-based Print & Capture SaaS solution, enhances print & capture support, security, and user experience for organizations of all sizes. It extends managed print to employee-owned home printers and other off-site devices within a secure, managed environment, offering comprehensive reporting and audit trails.

What's New
Enhanced delegated administration features attractive to Enterprise customers.

Capture Enhancements
✓ Capture API which can be accessed through the Printix Administrator panel.
- o Enables simple creation of capture connectors to on-prem network folders, cloud destinations, etc.
- o Advanced Workflow Capture Point – integration with ControlSuite and/or TotalAgility & other repository "watch folders".

Go Client MFD platform additions and enhancements.
✓ Print: Fujifilm
✓ Capture: Kyocera
✓ Go Client for Ricoh
- o Upgraded to enable document release directly from the cloud, eliminating the need for a computer running the Printix Client. With the new Go Client for Ricoh, properly configured Printix environments align with Zero Trust principles.

SAP Print Connector
SAP2Printix Module Add-on for supporting Printix print output to SAP ECC & SAP S/4HANA.

Enablement Sessions for Printix 2.2:
Technical Enablement: Information to follow
Partner Sales Enablement: April 9, 11 AM Eastern Time

The SAP Connector will have a separate Technical Enablement Session to be announced on a later date.
