Tungsten eCopy ShareScan

TUNGSTEN
AUTOMATION

Tungsten eCopy ShareScan

eCopy ShareScan simplifies document processing and automates workflows for effortless tasks.

Eliminate Document Bottlenecks and Boost Your Bottom Line

Overcome document bottlenecks and enhance profitability while transitioning to digital processes. Inefficient document handling can impede operations and impact revenue. While multi-function devices (MFDs) offer rapid scanning, they often lack seamless routing, security, and sharing capabilities. Tungsten eCopy ShareScan streamlines document processing, automating workflows with simplicity. Seamlessly integrate with Microsoft Office 365 for enhanced collaboration. With easy setup and versatility, eCopy ShareScan suits businesses of any size. Choose the right solution for your needs and pay only for what you use.

One Button Gets Documents onto Your Business Information Highway

Employees can quickly on-ramp documents to all the destinations they require with the push of a button. eCopy ShareScan features the easiest way to get fast, error-free documents scanned and converted to formats that make your business run smoothly. You can scan multiple documents into a single document right at the MFD.

With eCopy ShareScan you get the best experience possible with an optional document preview on the screen, type-ahead lookups, and the rapid "remember me" feature that makes it even easier to scan documents over and over again with the same settings.

Speed things up with eCopy ShareScan's easy-to-use workflow buttons

Use eCopy ShareScan's preview feature to help avoid wasteful errors

Seamlessly Integrate with Microsoft Office 365 using eCopy ShareScan

Nothing complements Microsoft Office 365 better than eCopy ShareScan. It offers seamless integration with Microsoft Active Directory Services for secure log-in and personalized workflows.

eCopy ShareScan converts scanned documents into Microsoft Office formats and connects directly to Outlook, OneDrive, and SharePoint with the highest accuracy. Your documents retain their original layout, including columns, graphics, headers, and footers, saving you hours of retyping and redesigning.

Experience the ultimate document workflow solution with eCopy ShareScan for Microsoft Office 365.

Easy Setup and Versatility at Your Fingertips

eCopy ShareScan enhances MFDs with versatile document capture. No other network document capture solution installs and configures faster, getting you up and running in minutes. Employees and managers can create personalized workflow buttons for real-time scanning to specific folders without involving IT. These buttons can be securely shared, and group members adjusted as needed. eCopy ShareScan maintains security, scalability, and high availability, streamlining and securing document-centric processes through simplicity.

The Best Way to Scan to PDF and Enhance Your Documents

Scanning is just the beginning of document collaboration. Over 50% of companies scan to PC desktops from MFDs to make edits, add comments, and incorporate additional content. eCopy ShareScan addresses this by transforming paper documents into high-quality PDFs. It uses top OCR accuracy (Tungsten OmniPage) to recognize and embed all words in your scanned document, making your PDFs easily searchable in desktop PDF applications, Microsoft Windows desktop search, and document management systems. This ensures seamless sharing, searching, and collaboration.

The Ideal Solution for Any Sized Customer

eCopy ShareScan is ideal for small businesses with limited IT resources and scalable for large enterprises. It installs in under 10 minutes, making it perfect for small businesses with limited IT resources, yet powerful and scalable for large enterprises. The centralized management console, featuring a simulator, lets you build and test connections and workflows without an MFP. Once validated, configurations can be pushed to any number of licensed MFPs. This simplifies the process of configuring, testing, securing, and deploying scanning workflows across all users and devices, regardless of make and model.

Choose the Right eCopy ShareScan Solution

eCopy ShareScan offers versatile functionality tailored to your needs. Contact your office equipment dealer or MFP manufacturer to engage a Kofax sales representative for a customized solution plan.

Don't need all the features?

With eCopy ShareScan, only pay for what you use.

Want to start simple?

Extend eCopy ShareScan with modules to connect and automate more.

Multiple MFPs with different requirements?

Mix and match eCopy ShareScan editions in a single installation. All editions use the same core engine and management console.

Worried about making the wrong choice?

There are no bad choices with eCopy ShareScan. Buy what you need and upgrade later with a new license key—no software reinstalls required.

Tungsten Offers eCopy ShareScan in 4 Product Editions

eCopy is built on an extensible platform, enabling you to expand functionality by adding business application connectors and document process extenders.

Tungsten Automation offers multiple editions of eCopy ShareScan that include different connectors and extenders. If you have invested in an eCopy edition that doesn't include the connector you need, please refer to the chart below and contact Tungsten Automation or your reseller on how to purchase.

eCopy ShareScan Elements:

Improves critical business collaboration processes like scanning to email, shared folders, home folders, and your PC desktop.

eCopy ShareScan Office:

Does everything Elements can do plus any one of our additional destination connectors for document management systems such as Microsoft SharePoint or Cloud repositories.

eCopy ShareScan Suite:

All the functionality options eCopy ShareScan has to offer plus any three of our additional destination Connectors for document management systems such as Microsoft SharePoint or Cloud repositories. Additionally, you get critical business processing capabilities including Barcode Processing, and Bates Stamping. This is a great option for law firms and legal departments.

eCopy ShareScan Enterprise:

High scalability and high automation document capture workflow platform. Includes many Tungsten eCopy Connectors and Extenders in a single, low-cost license for deployments with 50 or more MFPs. Additional Connectors are available for purchase.

Tungsten eCopy and Power PDF – The Perfect Pairing

Tungsten Power PDF Advanced, also powered by Tungsten's OmniPage OCR engine, is the ideal complement to eCopy ShareScan. Power PDF lets you create 100% industry-standard PDF files directly from any PC application that can print.

You can effectively share ideas with a full complement of annotation, stamping, redaction and drawing tools. Combine files and remove or replace pages. Select pages from a source document—Word, Excel, PowerPoint, WordPerfect, XPS, JPG, BMP, or TIF—to insert into a target PDF document.

Collect information using FormTyper to automatically convert non-fillable forms into fillable PDF forms that you can complete, save and email.

Perform intelligent searches leveraging a Looks-Like-Search feature and advanced information identification options to find what you need.

Ensure document security by controlling Power PDF Advanced is the perfect counterpart to your eCopy ShareScan enabled MFPs or for any office worker that needs to work with PDF documents, all at a surprisingly affordable price.

Over 10 Million users trust Power PDF, our award-winning PDF editor that's easy to use, secure, and affordable. With a familiar, Office-style interface, you'll be creating, converting and compiling PDF documents in minutes.

Advanced functionality, robust security, and redaction capabilities make Power PDF the perfect editor for individuals and businesses of all sizes.

Customers Love Power PDF

Here are a few of the accolades earned from numerous glowing reviews about how Power PDF saves them time, money and makes them more productive. Trust Radius Most Loved 2024. Trust Radius Top Rated 2024. Trust Radius Best Of 2023, Capterra Shortlist 2023.
